NEW YORK TIMES DEBUNKS NAZI SLAUGHTER OF 6,000,000 JEWS

Leading spokesman for world Jewry reveals important information

The New York Times publishes the proof The New York Times publishes the proof that there are more persons professing Judaism in the world today than there were in 1938. The Zionists have claimed that the Nazis slaughtered 6,000,000 persons professing Judaism between 1939 and 1945. The figures which the New York Times publishes on this subject are reliable and and have been obtained from official sources.

The statistics given by the New York Times prove positively that Zionists resorted to this gigantic untruth to gain the world's sympathy and support for their political ambitions and

nationalist aspirations in Palestine. It was a well known fact to the Zionists when they were using this vicious propaganda that there was no foundation for their false claims that Nazis had slaughtered 6,000,000 human beings because Judaism happened to be their religious belief.

The American Jewish Committee wants to be recognized as the Vatican of Judaism. They claim to be the authorized spokesmen for world Jewry, Statistics which they have issued in the past have always been regarded as very reliable. Organized in 1908, the American Jewish Com-

mittee has acted throughout the world as the guardian of the interests and the welfare of persons professing Judaism. Its active leaders have included Jacob H. Schiff, Paul Warburg, Herbert Lehman, Henry Morgenthau, Sr., and Americans professing Judaism of similar origin.

Americans professing Judaism of similar origin.

The authoratative World Almanac for the year 1947, on page 219, states that the world's population of persons professing Judaism, in the year 1939 was 15,688,259. The World Almanac states that this figure was supplied to them by the American Jewish Committee and by the Jewish Statistical Bureau of the Synagogues of America, H. S. Linfield, Director. It is not possible to find the equal of these two sources for unchallengeable statistics on this topic.

In the year 1948 the New York Times stated that the world's population in 1948 of persons professing Juda'sm amounted to "15,000,000 to 18,000,000 Jews" in addition to the "600,000 to 700,000 in Paiestine." The New York Times at that time spared no effort to establish the exact world's population of persons professing Judaism. They are very expert in this field.

These figures can be accepted without hesitancy by even the most skeptical Zionist. The New York Times is owned and operated by two outstanding Americans professing Judaism. They would not permit their paper to publish untrue statistics on that subject for any consideration,

The New York Times in 1948 assigned one The New York Times in 1948 assigned one of the world's leading authorities on matters relating to populations to prepare an up-to-theminute article on the situation in Palestine. The statements of this noted authority, the well-known Mr. Hanson W. Baldwin, are accepted everywhere and by everyone without hesitancy on matters connected with statistical facts.

After his investigation and consultations

with official sources, Mr. Hanson W. Baldwin, in the New York Times on February 22, 1948 over his own signature, supplied the figures stated above. Their reliability cannot be questioned.

The American Jewish Committee and the The American Jewish Committee and the Statistical Bureau of the Synagogues of America officially coulirm the world population of persons professing Judaism in 1938 as 15,688,259 and the New York Times officially states that in the year 1948 that population totaled between 15,600,000 and 18,700,000. Based upon these figures from sources which cannot be challenged the disappearance of 6,000,000 during that period can only be regarded as political propaganda.

It must be very evident that the world's population of persons professing Judaism would today be less than 10.000,000 if the 6,000,000 from the 1938 world's population of 15,688,259.
The authenticated 1948 world's population of 15,688,259.
The authenticated 1948 world's population of 15,600,000 to 18,700,000 persons professing Judaism completely discredits this propaganda.

The Zionists have used this vicious untruth as propaganda to entice the sympathy and support of the non-Zionist populations of the world for their well-camouflaged and completely misrepresented intentions in Palestine. The Zionists did not underestimate the tremendous force this

big untruth would exert upon the sympathetic and the unsuspecting non-Zionist populations everywhere. It won support which won for them.

The Zionists pointed their accusing finger at populations professing Christianity and pleaded for their support the world over for the "remnants of Hitlers wrath," never overlooking to play up the alleged 6,000,000 who were murdered. The Zionists claimed the right to ask for this assistance in creating a sovereign Zionist state in Palestine as a matter of atonement for the alleged slaughter of 6,000,000 of their co-religionists by Hitler and others professing Christianity. Their statements were not doubted.

We join with all other civilized peoples of We join with all other civilized peoples of every religious belief who mourn the loss of even one innocent life as the victim of the madness which swept over Europe. Our grief over the deaths of countless innocent men, women and children in the European and Asiatic war areas includes the peoples of all religions, races, and nationalities. A mutilated pregnant woman, a butchered baby, and a cremated living human being stir the same reaction within us whather. being stir the same reaction within us whether the victims attended a synagogue or a church or neither, Survival is not a sectarian struggle.

The New York Times has rendered a great vice to Christianity by erasing from the pages service to Christianity by erasing from the pages of history the indictment that 6,000,000 persons professing Judaism were murdered in Europe by persons professing Christianity solely on account of their belief in Judaism. Christianity owes a debt of gratitude to the New York Times for calling the attention of the world to the truth in this matter. Christianity may rejoice that posterity will not be compelled to labor under the indictment of such a crime against its faith.

The Zionsts have obtained the benefits which they planned to gain by means of that vicious propaganda about the 6,000,000 who died only on account of their belief in Judaism. It has served its purpose generously from their point of view. It can be of no further service.

The Zionists are now well aware that the alleged murder of those 6,000,000 is a myth. They cannot now plead ignorance of the facts.

Out of gratitude for the material and moral out of grantide for the material and inoral support of millions of persons professing Christianity who made the Zionists' efforts fruitful the Zionists should use their great propaganda machine to give the same amount of publicity to the truth that they gave to the untruth. The Zionists should now do something lofty to cleanse the good name of Christianity

of the stigma with which they have labeled it.

Pending release to the public by the New York Times of information obtained from confidential sources concerning the resettlement of Eastern Europeans professing Judaism before, during, and after World War II it will not be possible to publish this information earlier.

Statistics of a most reliable character are available which indicate the present location of the Eastern European populations professing Judaism, which were scattered around the world, before, during, and after the recent war. In spite of the fact that President Roosevelt in 1941 abolished the rule which required immigrants into this country to state their religion there are in existence and available authentic statistics on this domestic and international complication.

The newspapers in recent months published The newspapers in recent months published news items about the well-organized, large-scale, illegal smuggling into the United States over a period of many years by the underground airlines of large numbers of immigrants of Eastern-European origin. The total is not a secret to several organizations. This form of illegal smuggling has been going on into many of our neighboring countries and into many other countries

on a large scale. The totals are not a secret.

When the New York Times is in a position to publish these authentic figures they will be of considerable interest. For the present the figures quoted here of the total populations must suspend further examination of the matter.

It is not to be inferred from any figures quoted here that there were no casualties among the Eastern Europeans professing Judaism. It is the Eastern Europeans professing Judaism. It is quite probable that on a percentage basis the casualties in Eastern Europe of persons professing Judaism, both in the armed forces and out of the armed forces, exceeded the percentage of the casualties of persons not professing Judaism. This fact must be reconciled with the official statistics quoted here and any implication to the contrary is not intended.

tion to the contrary is not intended.

On the basis of these reliable figures it appears quite conclusive that the figure of the 6,000,000 persons professing Judaism allegedly murdered by the Nazis because of their religious belief is an extreme exaggeration if not completely a myth manufactured for propagn. Japurposes by the Zionist world-wide join—taff of publicity experts to acquire support for their war on the Palestenians which it was impossible for them to entice with any other argument.
